

# Renaming – RAMPF Polymer Solutions becomes RAMPF Advanced Polymers

New company name as of April 1, 2024 / RAMPF Advanced Polymers commences operations on July 1, 2024

**RAMPF Polymer Solutions will be renamed to RAMPF Advanced Polymers on April 1, 2024. On July 1, 2024, the core competencies RAMPF Polymer Solutions, RAMPF Eco Solutions, and RAMPF Tooling Solutions will be merged.**

The renaming is a first step in the merger of the three core competencies specialized in polymers – RAMPF Eco Solutions, RAMPF Tooling Solutions, and RAMPF Polymer Solutions.

The business activities of RAMPF Eco Solutions and RAMPF Tooling Solutions will be integrated into RAMPF Advanced Polymers on July 1, 2024.

Further information on RAMPF Advanced Polymers can be found [here](#).

The RAMPF Group stands for **engineering & chemical solutions** and caters to the economic and ecological needs of industry with six core competencies:

- > **RAMPF Machine Systems** based in Wangen (Göppingen), Germany, develops and produces multi-axis positioning and moving systems, trunk machines, and basic machines based on high-precision machine beds and machine bed components made from alternative materials such as mineral casting, ultra-high performance concrete, and hard stone.
- > **RAMPF Production Systems** based in Zimmern o. R., Germany, develops and produces production systems with integrated dispensing technology for bonding, sealing, foaming, and casting a wide variety of materials. The company also offers an encompassing range of automation solutions relating to all aspects of process engineering.
- > **RAMPF Composite Solutions** based in Burlington, Ontario, Canada, is a holistic composites supplier to companies in the aerospace, defense, transportation, medical, and green technology industries. The company offers a complete suite of services including composite part design and engineering, and metal-to-composite conversion engineering.
- > **RAMPF Eco Solutions** based in Pirmasens, Germany, develops chemical solutions for the manufacture of high-quality recycled polyols from polyurethane and PET waste materials. This company also designs and builds customized multi-functional plants for customers for the manufacture recycled polyols.
- > **RAMPF Polymer Solutions** based in Grafenberg, Germany, develops and produces reactive resin systems based on polyurethane, epoxy, and silicone. Its product portfolio includes liquid and thixotropic sealing systems, electro and engineering casting resins, edge and filter casting resins, and adhesives.
- > **RAMPF Tooling Solutions** based in Grafenberg, Germany, develops and produces board and liquid materials for cutting-edge modeling and mold engineering. The range of skills includes made-to-measure services and products such as pastes, large-volume and full-size castings for Close Contour models, and prototyping systems.

RAMPF has more than 850 employees and subsidiaries in Germany, the United States, Canada, Japan, China, and Korea.

All RAMPF companies are united under a holding company – RAMPF Holding GmbH & Co. KG – based in Grafenberg, Germany.
